PRODUCT OVERVIEW

BioBlend® Resins

Made with NuPlastiQ® BioPolymer

BioBlend® XD High Durability Resins for Durable Goods

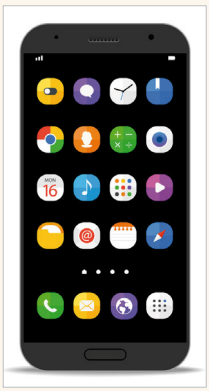
DESCRIPTION

BioBlend XD High Durability Resins are thermoplastic resins that offer exceptional functional and environmental benefits. *They are blends of plant-based* **NuPlastiQ** *with fossil-fuel based thermoplastics such as ABS, PP, TPE, EVA, EVOH, nylon or rHDPE*.*

BioBlend XD High Durability Resin Example - NuPlastiQ and PP

APPLICATIONS

Used for products that require durability. These include injection molded and thermoformed plastics for automotive parts, consumer electronics, hand tools, home appliances, toys, sporting goods, lawn & garden products, power tools, and rigid containers.



Consumer Electronics

Bottles & Containers

Tools, Appliances, Lawn & Garden

FEATURES & BENEFITS OF XD RESINS

- **XD** helps reduce both fossil fuel-based plastic content and greenhouse gas generation.
- **BioBlend XD** maintains the physical properties of the resins with which it is compounded.
- **XD** maintains durability and other strength characteristics.
- A product or package made with **XD** may be entitled to carry the USDA Certified BioBased Product label.

*Recycled or recovered HDPE, including marine & ocean debris

Toys, Sporting Goods, Home, Travel

Apparel & Footwear
